

COLLECTION

THE ART OF
OUTDOOR LIVING

FROM THE OWNER

The Art Of Outdoor Living

In the past 18 months we have been working diligently to take our production back to Indonesia where we began. We have immediately seen massive changes to our production quality and production time.

We have increased our aluminium extrusion thicknesses by up to 1.5mm on most collections as well as our sling quality. This now means greater peace of mind you are now buying a far more superior quality product than previously seen.

With the world's best teak now in our back yard again and a facility which is first class with production capabilities I am extremely excited with direction we are now heading.

I hope you enjoy the new collection much as we did designing it. With new collections to be released over the next 12 months, Indosoul will be sure to impress the most discerning customers.

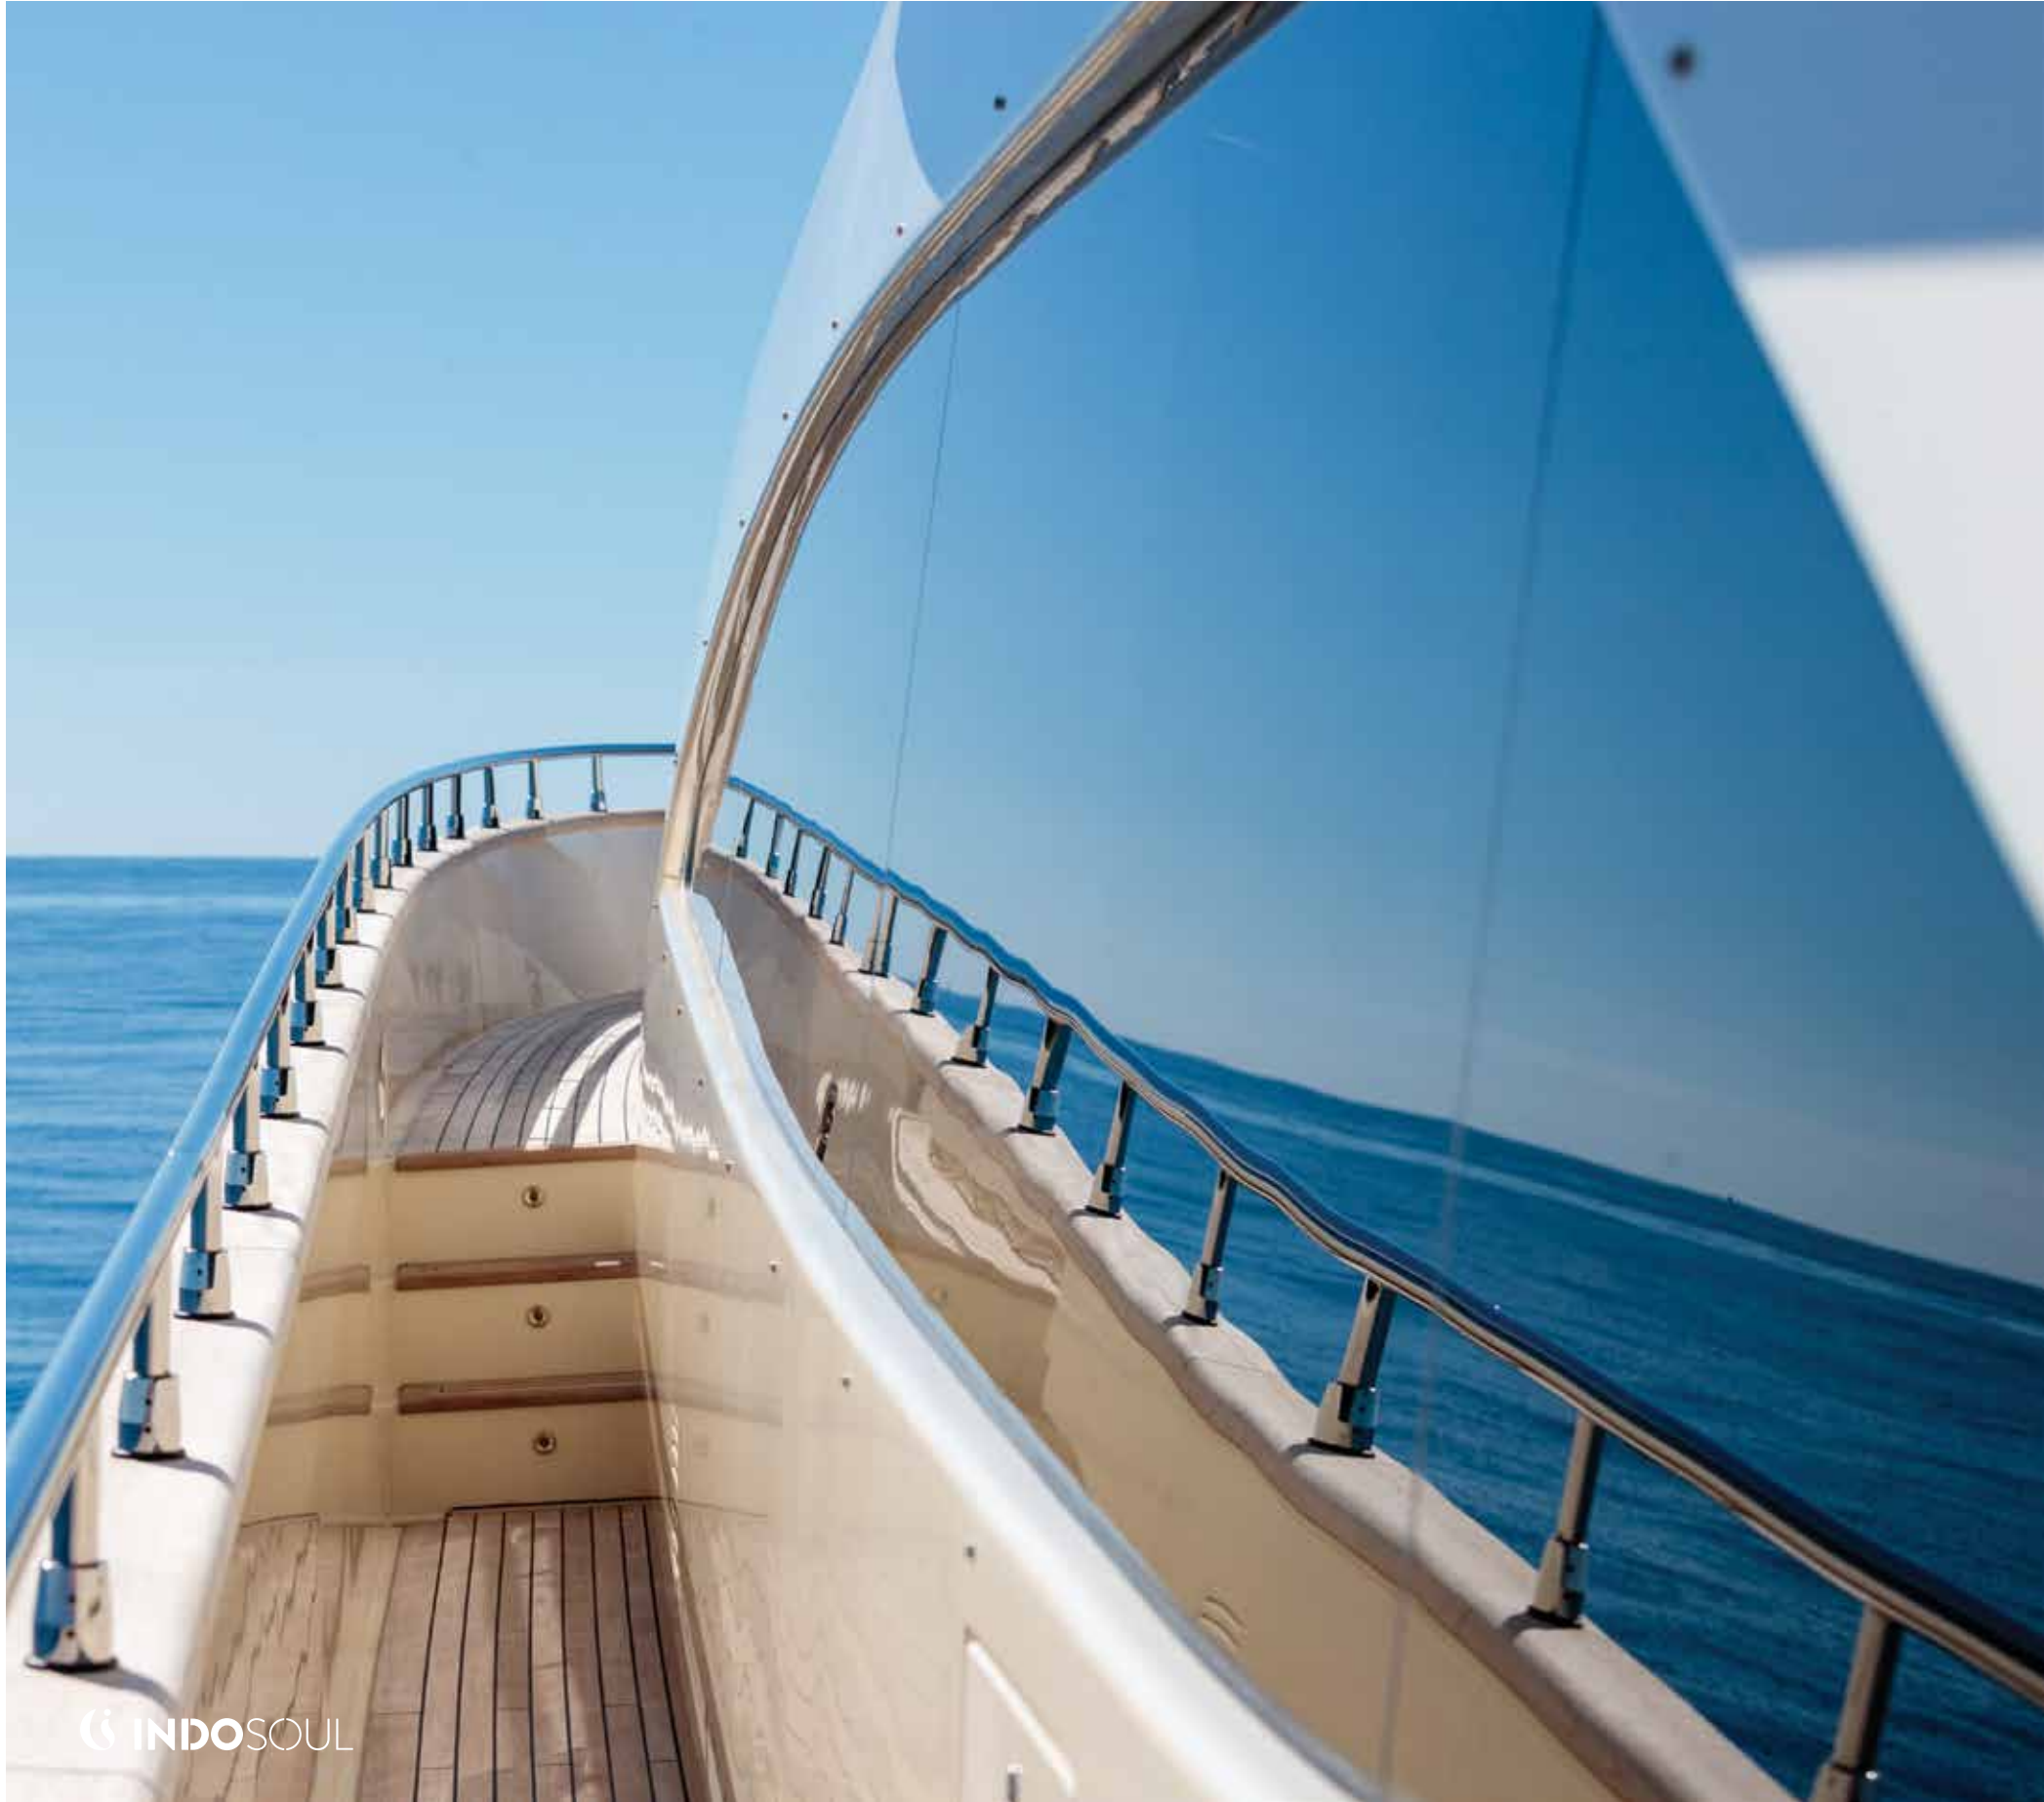

Steve Anderson

A stylized, handwritten signature in black ink that reads "Steve Anderson". The signature is fluid and cursive, with the first name "Steve" and last name "Anderson" clearly distinguishable.

THE ART OF OUTDOOR LIVING

To imagine, design and create the most functional outdoor furniture for the world to enjoy.
Bring joy and love to every outdoor area with designs that create happiness.

THE ART OF
OUTDOOR LIVING

MONTAGE DINING TABLE WITH
CALIFORNIA DINING CHAIRS

OUR SOUL

From the beaches of Bali to Australia, the USA and beyond. Indosoul's mantra is to make your outdoor living are as comfortable and usable as any indoor area. We open the door to outdoor living at its finest using the finest raw materials available to man.

RUNWAY BAR TABLE WITH
MILAN BAR CHAIRS

ST LUCIA

CALIFORNIA

Our craftsman are the finest of their kind in wood turning and fabrication. While we believe in the use of teak in our designs we are also environmentally conscious using only Indonesian legally logged teak which is FSC approved.

THE EDGE

FLORIDA

We believe in outdoor living and a healthy lifestyle and what better way to spend time lounging outdoors with family and friends in luxury and comfort.

YOUR ENJOYMENT IS OUR PLEASURE

RELAX IN STYLE

A timeless and functional design. From its ice bucket, to side table and dual end head rests the Cabo Day Bed is perfect for lounging around on all day long.

TEAK

Natural Teak - Fine Sanded

Natural Fine Sanded Teak

Teak is close grained hardwood with high natural oil content. Highly resistant to rotting and almost impervious to sun, rain, frost, and snow. These characteristics make it the ideal timber for all outdoor applications.

A high-quality teak from sustainable plantations. Our teak is officially licenced "Indonesian Legal Wood".

Black Brushed teak

Black Brushed Teak

Its not s secret anymore that dark colors are quickly becoming the new neutral. We use our main material, premium teak wood, and add a PU finish to it. This finish features dramatic and refined hues that set it apart, giving it a soft hairline and grains, which makes it unique and beautiful. Inspired by the rich tones found in nature.

We recommend the black brushed teak to be used in outdoor areas under cover to help increase the longevity of the PU finish.

WICKER

Grey

All Weather Wicker

IndoSoul uses Viro and Rehau fibre a premium synthetic polyethylene wicker. Weaving wicker is an art within itself and come in many different colors and shapes. The material is tare free, weather resistant and colorfast. With all these features the product gives a beautiful natural look which never gets old. It is 100% recyclable and resistant to chlorine and salt water.

CARE AND
MAINTENANCE

ALUMINUM

Aluminum is a popular material for outdoor furniture due to its versatile properties.

To increase the longevity of your furniture, wash regularly with a non-abrasive mild soap and water. Rinse thoroughly and allow to air dry. This will remove dirt, body oils, chemicals and other substances. Repeat if necessary.

BEAN BAG

To refresh your bean bag lounger, brush off any loose dirt, use a gentle solution of warm soapy water to gently wash the fabric, avoid harsh household cleaners. Rinse thoroughly (hose down) and allow to dry naturally.

Ensure your beanbag loungers dry out completely to prevent any chance of mould forming from moisture build up. By doing this, it ensures you can enjoy your lounger by improving its longevity in your home.

CUSHION COVERINGS

All are engineered to combine the highest level of design and performance. Whilst the fabric is resistant to fading and moisture damage, we advise keeping cushions away from extended exposure to moisture and direct sunlight. Should cushions get wet, air dry prior to storage.

For easy maintenance or to remove light stains/spots from your fabric; Brush off loose dirt, spray on a mild non-abrasive household cleaning solution (water and soap) and gently wash with a soft bristle brush to clean. Allow cleaning solution to soak into the fabric before rinsing thoroughly and removing all the soap residue. Air dry.

For heavy soiling we recommend you consult a professional fabric cleaner.

CERAMIC

Ceramic is a modern and easy to care for material due to its non-absorbent properties.

Using a microfibre cloth, wipe away any dirt on the surface prior to washing with a solution of mild soap and water. Always wipe the surface down after cleaning to remove any soap. Allow to air dry.

For heavy staining we recommend you consult a professional fabric cleaner.

GLASS

A glass surface outdoors typically attracts more dirt than an indoor glass surface. To keep your glass looking pristine wipe away any dirt with a soft microfibre cloth, wash with a mild soapy water solution, dry thoroughly prior to using your favourite glass cleaner to remove any streaks. Follow the same steps to clean the under side of the glass.

Avoid using any harsh scrubbing sponges or anything that could scratch the glass.

LEATHER

Outdoor leather is a premium quality fabric which is produced with a series of technical data proving the high performance of the fabric against the natural weather (rain or shine). The synthetic leather has color fastness to light, to rubbing, to chlorinated pool water, water repellency, soil and stain repellency, anti-bacterial, anti-mildew and UV resistance.

To clean this classic material, brush off loose dirt by hand, using a soft bristle brush or spatula, then vacuum clean. Pre-clean with a neutral universal agent (incl. possibly dry foam as well). After cleaning remove any residual cleaning agent with water.

For heavy staining we recommend you consult a professional fabric cleaner.

STACKING

It is suggested that you do not move or store furniture that is stacked higher than the recommended stack height.

Over stacking of furniture could result in scratching, rubbing, wearing or breakage of the frame/wicker. This is not covered by Limited Warranty.

STAINLESS STEEL

Stainless steel is a strong and modern metal with high corrosion resistant properties. Stainless steel is a bright surface and if appropriately maintained will continue to look brand new for many years.

It is important to note that stainless steel furniture is not totally impervious to corrosion and should be regularly cleaned. Infrequent cleaning can lead to small brown spots appearing on the surface of the steel. These brown surface 'spots' may be caused by air-borne pollutants in urban areas or from salty air near the coast. These discolorations are purely superficial and in no way affect the mechanical strength or integrity of the furniture.

For light cleaning (like finger prints and smudges) use a window cleaner. For stronger stains, you can use vinegar and buff the spots gently with a microfibre cloth. For heavy duty cleaning use a commercial stainless steel cleaner. Follow the instructions as noted on the product.

To maintain your furniture, rub a light coat of 'orange oil' furniture polish (or similar) onto the surface after its been cleaned to prevent smudging and rust.

Maintenance cleaning should be done at least once every 2 months.

NEVER USE ABRASIVE CLEANERS. MAJOR SCRATCHES CAN BE REMOVED WITH A SCOTCHBRITE PAD AND WD40 SPRAY. ALWAYS WIPE WITH THE GRAIN OF THE STAINLESS STEEL.

TEAK

Teak is a popular and highly recommended wood for outdoor furniture. Teak is a reliable and strong hardwood that offers many benefits over other natural materials. Its excellent durability, low maintenance, weather proof properties and unmistakable good looks make this the perfect wood for your outdoor furniture.

Over time, the woods natural tendency will take on an elegant silvery-grey look which develops from the aging process and being exposed to natural weather conditions. The integrity of Teak wood is maintained throughout and does not degrade like other lesser natural materials.

The IndoSoul Teak is of the highest quality and has a moisture content of no more than 12%. Teak has a natural resistance to mould and insects; however, regular cleaning will prevent mildew and unwanted discolouration.

To clean, brush off loose dirt, use a mild soapy water solution (do not use detergent) with a soft bristle brush to clean. Never use a metal brush. Rinse thoroughly and air dry.

For tougher stains try a commercial teak cleaner following the product instructions.

To maintain the woods natural colour you may want to oil the teak with specialised teak oils. This method will slow down the natural weathering process and should be done every 2-3 months. Only oil the teak once it's been cleaned and is completely dry. We recommend that you keep oiled furniture out of the direct sunlight.

TEXTILENE

Textilene is a superb fabric specially formulated to withstand wear and tear for many years of outdoor use. The non-stretch mesh fabric is woven together with strong polyester yarns that are individually coated with PVC.

This product is the best choice for sling furniture due to its elegance, strength and durability. Textilene is a relatively easy fabric to maintain and keep clean.

Brush off loose dirt and, rinse with water or hose wash. Use a mild soapy water solution (do not use detergent) with a soft bristle brush to clean. Never use a metal brush or high pressure cleaner. Rinse thoroughly with fresh water and allow to air dry fully.

COMFORT WEAVE SLING

IndoSoul's Comfort Weave is a unique woven textilene and 100% solution dyed acrylic, a soft and versatile fabric specially formulated to withstand wear and tear for many years of outdoor use. The stretchable mesh fabric is woven together with strong polyester yarns that are individually coated with PVC.

This product is the best choice for sling furniture due to its elegance, strength and durability. Textilene is a relatively easy fabric to maintain and keep clean.

Brush off loose dirt and, rinse with water or hose wash. Use a mild soapy water solution (do not use detergent) with a soft bristle brush to clean. Never use a metal brush or high pressure cleaner. Rinse thoroughly and allow to air dry fully.

WICKER

Synthetic outdoor wicker requires minimal maintenance as it's engineered to withstand the outdoor elements. To clean outdoor wicker, use a non-foaming cleaner with water, and use low-pressure fresh water to rinse. Wiping with a wet cloth, or one with a mild, non-foaming agent can clean textured outdoor wicker, but the texture may change slightly, instead, it's recommended that you spray and rinse the outdoor wicker with clean, fresh water. Alcohol and oil-based cleaners are not recommended.

NOTE:

Always use caution when opening boxes and removing the protective materials. Avoid using anything sharp as to not damage the products.

When using any type of product on our furniture, we strongly recommend a spot/patch test to ensure there is no discoloration or undesirable results.

MANUFACTURERS
WARRANTY

INDOSOUL USA warrants its products to be free of defects in materials, manufacturing and workmanship for the periods shown below from the original date of purchase. IndoSoul, at their discretion will credit, repair or replace the item in the original color and collection or in a comparable color and collection if the original version has been discontinued. IndoSoul will be responsible for freight charges on approved Warranty Claims for a period of 1 year.

After that time, the customer will be responsible for any inbound and outbound freight to and from IndoSoul, including but not limited to freight charges for empty boxes.

	Residential	Commercial
Aluminum & stainless steel structural frame warranty Covers broken tubes, extrusions and welds	10 Years	8 Years
Aluminum & stainless steel finish warranty Covers fading peeling and blistering	5 Years	3 Years
Ceramic and spraytone tabletop finish warranty Covers fading peeling and blistering - finish only, excludes breakage	3 Years	1 Years
Mechanical components warranty Covers extension table mechanics and all other moving parts	3 Years	1 Years
Teak structures and components warranty Covers splitting, cracking, warping (excludes natural teak discoloration)	5 Years	3 Years
Outdoor wicker warranty Covers splitting, cracking, discoloration and unraveling	3 Years	1 Years
Textilene slings and padded slings warranty Covers fading, splitting, cracking and coming out of sliding track	3 Years	1 Years
Cushion fabric - Sunbrella warranty Covers loss of color or strength from normal usage and exposure	5 Years	5 Years
Cushions - excluding Sunbrella warranty Covers foam and fill from breakdown under normal use	1 Years	1 Years
Outdoor bean bags - Sunbrella warranty Covers bag, fill, zipper and fabric against severe fading	2 Years	1 Years
Outdoor bean bags - PVC coated polyester warranty Covers bag, fill, zipper and fabric against severe fading	1 Years	1 Years

WARRANTY EXCLUSIONS: Limited Warranty does not include: Product failure resulting from improper care or unreasonable use; careless unwrapping of furniture; neglect or abuse; acts of nature; rust seepage or bleeding; rust and/or oxidation of frame resulting in exposed metals that have scratched / chipped; surface rust from stainless steel components; fading of fabrics; mildew; damage by hard abrasive cleaners or lotions; glass breakage; owners’ modification; improper / lack of maintenance and care; normal wear and tear; freight damage; or flattening /compression of cushions.
